Nigel,
 Thank you for your message and the information about Nigel Shackleton's unwillingness to furnish his exact address.

We are now concerned with the problem of his signature on the patent documents.

Signature of the inventors is in fact requested in some countries during patent procedure and is strictly regulated in the United States.
 Do you think it will be possible to obtain his signature?

Finally, have you news about Tony Brown? Have you been able to forward my message to him?

Best regards,

Mariangela

Mariangela,

I have contacted Nigel Shackleton. Unfortunately, he was unwilling to give or confirm his current address.

Best regards,

Nigel Fishlock

Dear Mr. Davies,

As you may remember, I already troubled you in connection with the subject patent application and signature of the two inventors Nigel Shackleton and Tony Brown and you kindly helped me in keeping contract with them.

The International procedure of the application in question has now terminated and the application should enter national phases in the designated countries by the end of September. **S I still need signatur f the inventors**, but I have been informed by Mr. Fishlock that both left Pirelli General. Mr. Fishlock is trying to put me in contact with Tony Brown and Ms. Sarah Radford has kindly furnished me some recent news about Nigel Shackleton.

The address should be:

19 Five Locks Close
Pontnewydd
Gwent
United Kingdom
NP44 1DB

and tel. Number 01633 774027 (I tried, but for the moment with no success)

I would need confirmation that the above is the current address so that I may correct the old one and indicate on the documents the most recent one and I am also wondering whether you have the possibility to contact Nigel Shackleton on our behalf anticipating him the matter.

With many thanks for your help.

Sincerely yours,

Mariangela Sala
